GRIHGO DIGITAL & TECH

Website Requirement, Full UI/UX Flow & System Architecture

Technology • Innovation • Growth

Premium IT + AI + Digital Solutions website with 3D animation, service/product showcase, appointment booking, client portal and admin panel.

1. Brand & Design Direction

Use the uploaded GrihGO Digital & Tech logo exactly as supplied. Do not redesign, substitute or alter the logo identity.

Color system: White background, black/dark navy text, GrihGO blue as primary brand color, green as secondary accent, light grey borders and selective deep navy/black sections.

Design language: premium, minimal, futuristic, corporate, AI-oriented, clean, responsive, with smooth 3D animation, micro-interactions, rounded cards, soft shadows and restrained glassmorphism.

Navigation

```
GrihGO Logo | Home | About Us | Services | Products | Contact Us | Book Appointment | Client Login
```

2. Home Page

Hero Section

Headline: BUILD DIGITAL. BUILD SMART. BUILD FOR THE FUTURE.

Subheading: GrihGO Digital & Tech delivers IT services, AI solutions, business software, digital marketing and customized technology solutions designed to help businesses grow.

CTAs: Explore Services • Book an Appointment • Talk to Our Team

3D animation: floating digital sphere, AI nodes, connected business network, cloud/analytics/software cards and subtle continuous rotation.

Business Introduction

```
One Technology Partner. Multiple Business Solutions.

IT SERVICES AI SOLUTIONS
BUSINESS SOFTWARE DIGITAL MARKETING
```

About

Technology. Innovation. Growth. Present GrihGO Digital & Tech as a technology and digital growth company focused on modern digital solutions for businesses, supported by an animated technology ecosystem.

3. Services

IT Services

- Website Development: business, corporate, e-commerce, custom websites, PHP web apps and landing pages.
- Application Development: Android, iOS, business apps, customer apps and admin applications.
- Software Development: custom business software, ERP, CRM, HR, inventory, billing, school, hospital, restaurant and business-management software.

AI Solutions

- AI Chatbot
- AI WhatsApp Automation
- AI Lead Management
- AI Content Solutions
- AI Business Assistant
- AI Automation

Digital Marketing

- Social Media Marketing: Instagram/Facebook strategy, creatives, reels and engagement.
- Performance Marketing: Meta Ads, Google Ads, lead generation, e-commerce ads, retargeting and conversion optimization.
- SEO: local SEO, on-page SEO, technical SEO, keyword research and Google Business Profile.

4. Products / Business Software

Create a dedicated product ecosystem so the website works as both a company profile and a SaaS/product showcase.

- GrihGO WhatsApp CRM / WA CRM
- Billing Software
- CRM
- Inventory Management
- ERP
- HR Management & Payroll
- School Management
- Hospital Management
- Restaurant Management
- Real Estate CRM
- Lead Management
- Project Management
- Customer Support System
- Appointment Management

Product Detail Template

```
Product Name
Short Description
Features
Screenshots / UI Preview
Benefits
Request Demo
Book Appointment
```

5. WhatsApp CRM

Positioning: TURN WHATSAPP INTO YOUR BUSINESS WORKSPACE.

- WhatsApp Lead Management
- Customer Management
- Multiple Agents
- Team Inbox
- Automated Replies
- Templates
- Campaign Management

- Lead Assignment
- Follow-up
- Chat History
- Customer Tags
- Reports & Analytics

Show an animated dashboard preview with new leads, active chats, follow-ups, conversions and a customer inbox.

6. Billing Software

- Invoice
- GST Billing
- Customer Management
- Product Management
- Inventory
- Purchase & Sales
- Expense
- Reports
- Payment Tracking
- PDF/Print Invoice
- Dashboard

CTA: Request Demo

7. Why GrihGO

- Customized Solutions
- Scalable Technology
- AI-Powered
- Business Focused
- Technical Support
- One Technology Partner

8. Work Process

```
01 DISCOVER → 02 PLAN → 03 DESIGN → 04 DEVELOP → 05 TEST → 06 LAUNCH → 07 GROW
```

Use scroll-triggered animation for the timeline.

9. Portfolio / Case Studies

Show Website Development, E-commerce, CRM, Billing Software, AI Automation, Digital Marketing and Business Dashboard projects. Each card can include industry, solution, technology, documented impact and View Project.

10. Book Appointment

Dedicated appointment page with: Full Name, Business Name, Email, Phone Number, Service, Budget Range, Preferred Date, Preferred Time and Message.

Service options: Website Development, Mobile App, Software Development, WhatsApp CRM, Billing Software, AI Solutions, Digital Marketing, SEO, Performance Marketing, Other.

On submission: save to database, show confirmation and notify the admin.

11. Contact Us

Contact page should contain GrihGO Digital & Tech information, WhatsApp/phone/email/website, office address, contact form and Google Map.

12. Client Panel

Client Login

```
Email / Phone

```

Core relationships: Client → Projects/Tasks; Client → Appointments; Client → Invoices → Payments; Client → Support Tickets → Messages.

15. Recommended Project Structure

```
grihgo-digital-tech/
■■■ index.php
■■■ about.php
■■■ services.php
■■■ products.php
■■■ contact.php
■■■ appointment.php
■■■ login.php
■■■ services/
■■■ client/
```

```
■■■ admin/
■■■ assets/css/
■■■ assets/js/
■■■ assets/images/
■■■ assets/models/
■■■ includes/
■■■ api/
```

16. 3D Animation & Frontend

Recommended: Three.js for 3D scenes, GSAP + ScrollTrigger for smooth motion, CSS animations and JavaScript interactions.

3D concepts: AI technology sphere, floating service icons, technology orbit, dashboard panels and a glowing digital ecosystem. Keep 3D lightweight and adaptive so mobile performance remains fast.

17. Complete User Journey

```

```

20. Security & Technology Stack

- Password hashing
- Prepared SQL statements
- Session security
- CSRF protection
- XSS protection
- Role-based access
- Secure file uploads
- Login rate limiting
- HTTPS/SSL
- Database backup

Stack: HTML5, CSS3, JavaScript, Three.js, GSAP, ScrollTrigger, PHP 8+, MySQL, AJAX/Fetch API, PHP sessions and role-based authentication.

21. CTA Strategy

```
Hero → Explore Services / Book Appointment / Talk to Our Team
Services → Get a Quote
AI → Talk to AI Expert
WhatsApp CRM → Request Demo
Billing Software → Request Demo
Software → Discuss Your Requirement
Digital Marketing → Get Growth Consultation
Footer → Book Appointment
```

Final Product Vision

The website should not feel like a basic IT-company profile. It should function as a premium technology ecosystem: public marketing website + product showcase + lead generation + appointment booking + client portal + project management + billing/support + admin CRM, all connected through PHP/MySQL.
